

Fence Elevation Facing Street

Fence Section

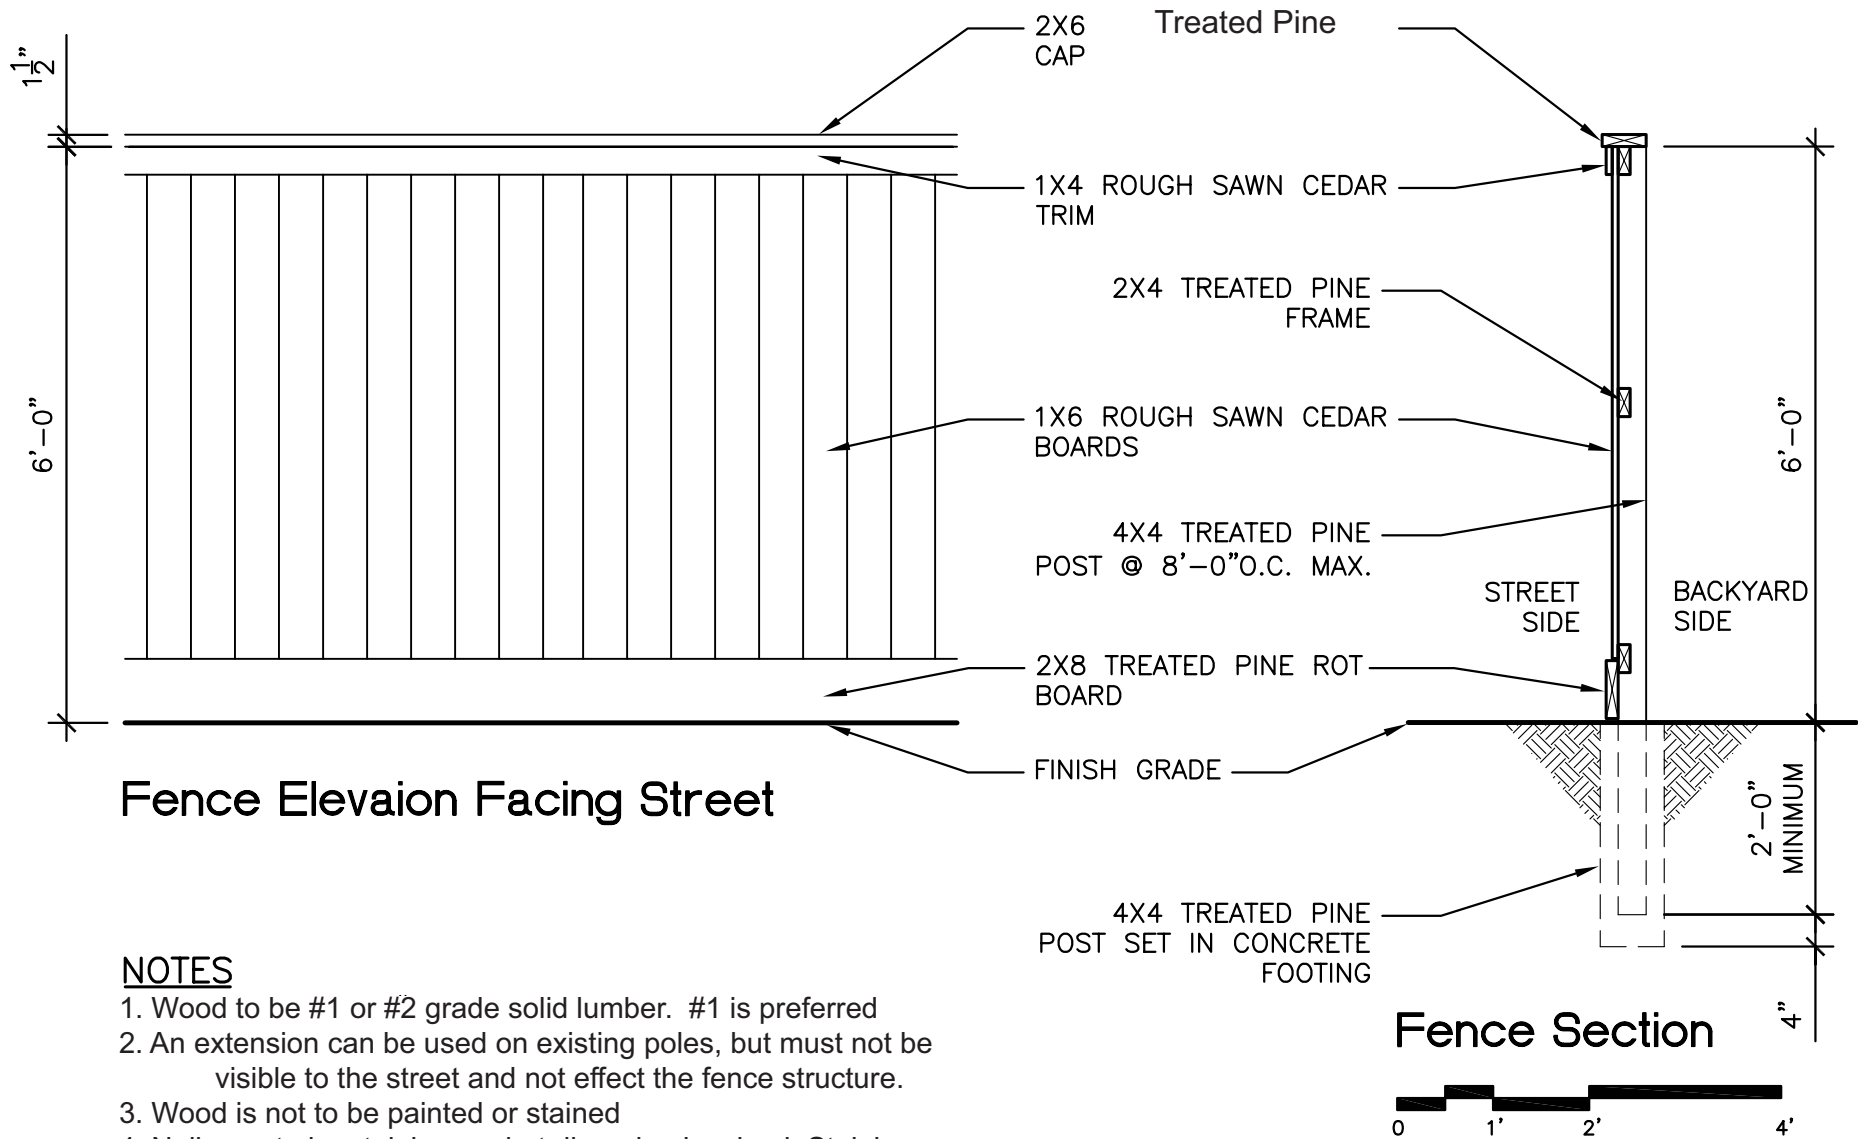

NOTES

1. Wood to be #1 or #2 grade solid lumber. #1 is preferred
2. An extension can be used on existing poles, but must not be visible to the street and not effect the fence structure.
3. Wood is not to be painted or stained
4. Nails are to be stainless or hot dipped galvanized. Stainless steels screws can also be used.
5. Gates to match fence.
